Augusta County Administrator's Office
Attn: County Administrator
P.O. Box 590
Verona, VA 24482-0590

Dear County Administrator :

Buckingham Branch Railroad Company is a family-owned short line railroad that operates 275 miles of railroad in Central Virginia. Buckingham Branch was founded in 1988 by Robert and Annie Bryant and ran its first train on March 6, 1989. Since then it has grown from a 17 mile line with two employees to its current size today of 275 miles of track.

Buckingham Branch leased 200 miles of track from CSX and commenced operations of the Richmond and Alleghany Division on December 20, 2004. This operating lease was for track from Clifton Forge, VA to Richmond, VA, including 9.9 miles known as the Orange Branch. Since that time we have leased 58 miles of track from Norfolk Southern Railroad and now operate our Virginia Southern Division which has tracks from Burkeville to Clarksville, Virginia.

We are requesting a resolution from Augusta County supporting Buckingham Branch Railroad Company's application for grant funds from the Virginia Department of Rail and Public Transportation Rail Preservation Fund. Buckingham Branch Railroad will provide all local matching funds for the grant.

The Richmond and Alleghany Tie Replacement project is a five year project which will help us replace mainline ties, switch ties, siding ties and mainline bridge deck ties. Work will include adding ballast, tamping, surfacing, and drainage improvements on the Buckingham Branch Railroad line located between MP 85.5 in Richmond Virginia and MP 276 in Clifton Forge, VA.

Work from the tie replacement project will help us to provide safe, reliable transportation of freight for you and all of the present and future industries located in the cities, towns and counties located on the Richmond and Alleghany Division of Buckingham Branch Railroad.

If you have questions or comments, please feel free to contact me at our Dillwyn office. Additional information about our company and operations may be found at our web site: www.buckinghambranch.com

We sincerely appreciate your past support. We look forward to many more years of serving your communities. Please do not hesitate to contact me if I can be of assistance.

A sample resolution and a map showing the location of our operations are included with this letter. A copy of the approved resolution should be sent to Mr. Claude Morris at the mailing address shown in the letterhead.

Sincerely,

Claude Morris

22. Give a brief description of the arts organization(s) proposed to receive Commission assistance through the Local Government Challenge Grant in 2016-2017.

The Staunton Augusta Art Center

The Staunton Augusta Art Center is a nonprofit community service organization founded in 1961 and dedicated to offering diverse experiences in the creation and appreciation of the visual arts to all area citizens and visitors. Complementary to this, the second part of the mission is to support artists by offering them opportunities to exhibit and sell their work and to teach. Housed in the R. R. Smith Center for History and Art in historic downtown Staunton, the Staunton Augusta Art Center is highly visible and easily accessible to city and county residents and to visitors to the area.

The facility houses state-of-the-art galleries in which the Art Center exhibits seven different high quality art shows a year, all free and open to the general public. Exhibits showcase long-standing community artists and artisans, up and coming professional artists in the region, some artists from outside the area, occasional museum loans, the annual youth art exhibit, and the annual Art for Gifts during the winter holiday season. The Art Center also offers art classes every Saturday in March, during the summer, and other times throughout the year. The organization's signature event, Art in the Park at Gypsy Hill, is now a two-day art festival over the Memorial Day weekend and serves as a destination point for tourists. The Staunton Augusta Art Center eagerly collaborates with other organizations in a variety of ways to strengthen the area as an arts destination resulting in a positive impact on the area's economy while, at the same time, enriching residents with quality visual art opportunities.

The Stonewall Brigade Band

Organized in 1855, The Stonewall Brigade Band is the oldest continuous municipal band in the United States. In 1861 it became the Fifth Regimental Band of Virginia's First Brigade (later changed to the Stonewall Brigade), Army of the Shenandoah, C.S.A., performing to maintain the spirits of the troops and serving as medical assistants during battle. Today the band continues its community service by providing music for various civic functions, dedication ceremonies, and a benefit Christmas concert where a free-will offering is collected for a local charity. The Stonewall Brigade Band is a nonprofit community band with unrestricted membership of over 100 volunteer musicians, including teenagers, senior citizens, minorities, and physically challenged. The Band holds weekly rehearsals from October through May and weekly concerts from June through August. These rehearsals and concerts provide young musicians an opportunity to perform alongside adults and professional musicians. Many Stonewall Brigade Band student members compete and win top chair positions in regional, district, and state bands. These musicians attribute their sight-reading expertise to their Stonewall Brigade Band experience of reading music that they have never practiced. Many of our student musicians have moved on to become college music majors, to become professional musicians, to perform with our United States Armed Forces bands, to teach at the elementary, secondary, or college level, and/or to perform professionally. Because the Band spends almost 20% of its budget on new music every year and maintains its library of priceless, out-of-print music, it provides an opportunity for a musician to read more new pieces in one year than most students get to read during their entire school career.

ShenanArts

ShenanArts is a non-profit performing arts and education organization. Since its creation in 1981 our mission has been—and continues to be—to use the power of theatre to build bridges within our community with a concentrated focus on youth and teens. We provide the community exciting theatre programming while allowing children, teens, and adults multiple opportunities for creative drama, music, and theatre.

Throughout the year, educational opportunities are offered to students, including two weeks of various camps for all ages. Our camps cover, not only performing, but also technical theatre and playwriting. Scholarships are provided on a need basis. ShenanArts continues to be the only year round theatre in the valley that offers the young and young at heart hands on experience in all facets of theatre. This year eight plays were brought to life on the stage with an average attendance of 150 people per night and 310 participants over the course of the plays. We are proud of our continued success, watching former students head to the big American Idol stage, receiving scholarships from universities and fine arts programs, and creating new theatre groups—all with the beginnings of training and opportunities received at ShenanArts.

SUBGRANTEE (S) INFORMATION

23. Please list which local independent arts organizations will receive the Commission grant money sub-grant. After the Commission grant has been approved, any changes in the allocation of sub-grants to local arts organizations must be approved by the Commission. **Note:** Sub-grants (grants made by the local government) of any Commission funds, not to exceed \$5,000, from the Local Government Challenge grant program may only go to independent Virginia arts organizations for arts activities in the locality. Virginia arts organizations are defined as those organizations whose primary purpose is the arts (production, presentation or support of dance, literary arts, media arts, music, theater, or visual or related arts), that are incorporated in Virginia, and have their headquarters and home seasons, or activities equivalent to a home season, in the state. Units of government and educational institutions cannot be considered arts organizations.

P. J. WRIGHT, JR. - REZONING

This being the day and time advertised to consider a request to rezone approximately 3.3 acres from Limited Business to General Business with proffers owned by P. J. Wright, Jr., located on the south side of Jefferson Highway (Route 250) approximately 0.2 of a mile east of the intersection with Aero Drive (Route 1006) and adjacent to the city limits of Waynesboro (Wayne District). The Planning Commission recommends approval of the request with proffers.

Becky Earhart, Senior Planner, displayed property on the overhead outlined in pink noting Pratts Run, a road that will eventually tie in and provide additional access to Boyington Subdivision. She noted the following proffers that had been submitted:

1. Prohibited uses of the property shall include:
 - a. Gasoline retail outlets.
 - b. Warehouses and distribution centers, including mini-warehouses.
 - c. All uses which utilize the outdoor display or storage of vehicles, equipment, manufactured homes, boats, and building supplies; and the outdoor storage of merchandise or other goods.
 - d. All uses not conducted entirely within an enclosed building, including "drive-through" facilities. However, parking, loading and unloading facilities, dumpster sites, and vehicular and pedestrian passageways are allowed.
2. No free-standing sign shall exceed 25' in height. The total sign area per parcel will not exceed two (2) square feet per linear foot of lot frontage.

February 24, 2016, at 7:00 p.m.

P. J. WRIGHT, JR. – REZONING (cont'd)

3. If 67C2(8) 5 and 6 are developed individually, the total aggregate area of any structure or structures on the individual lot may not exceed 10,000 square feet. If combined into a single lot, the total aggregate area of any structure or structures may not exceed 18,000 square feet.
4. No building shall exceed thirty-five feet (35') in height.

Ms. Earhart noted the only difference between the limited business that currently exists and the existing zoning is the aggregate area of the building.

Public water and public sewer are available on this property and it is designated as Urban Service Area: Business.

P. J. Wright, applicant, expressed his desire to build one 18,000 square foot building on the property.

The Chairman declared the public hearing open.

There being no speakers, the Chairman declared the public hearing closed.

Mr. Coleman moved, seconded by Mr. Garber, that the Board adopt the following ordinance with proffers:

A request to rezone approximately 3.3 acres from Limited Business to General Business with proffers owned by P. J. Wright, Jr., located on the south side of Jefferson Highway (Route 250) approximately 0.2 of a mile east of the intersection with Aero Drive (Route 1006) and adjacent to the city limits of Waynesboro in the Wayne District.

LAW LIBRARY FEE INCREASE ORDINANCE AMENDMENT

This being the day and time advertised to consider an Ordinance to amend Section 22-102 of the Code of the County of Augusta, Virginia. The proposed amendment authorizes local governments to assess a fee not to exceed Four Dollars on all civil actions filed in the Circuit Court and the District Courts of the County to help defray the costs of maintaining a law library open to the public.

Patrick J. Morgan, County Attorney, reported that he had received a request from the Clerk of the Circuit Court to consider an increase in the fee that was charged with each civil complaint for the maintenance of the County Bar Library from \$2 to \$4. The \$4 fee is permitted by State Code. Records have indicated an increase of expenses. The public is allowed access to the library and it is recommended that the Board consider this favorably.

The Chairman declared the public hearing open.

There being no speakers, the Chairman declared the public hearing closed.

Mr. Pyles moved, seconded by Mr. Shull, that the Board adopt the following ordinance:

BLUE RIDGE COMMUNITY COLLEGE - UPDATE

The Board received a presentation by Blue Ridge Community College President regarding college activities.

Dr. John Downey, President of Blue Ridge Community College (BRCC), expressed his appreciation of the Board for its ongoing support and dedication over the years for the funding and the Augusta County representatives provided for the Blue Ridge Community College Board (Dr. Bruce Bowman and Lynn Diveley). He wanted to thank Pat Coffield publically "for all the years of service to this County and to the College. He really was viewed as the 'go-to person' whenever the College ever had an issue that required us thinking through multi-jurisdictional issues." He also looked forward to working with Mr. Fitzgerald and Dr. Eric Bond, Augusta County School Superintendent. A packet of information with statistics about the impact BRCC has on Augusta County residents was provided to the Board. He emphasized that BRCC continues to serve a significant number of Augusta County citizens and businesses. Last year, of the 4,980 students served in credit programs, 1,653 were from Augusta County (33% of local student body). Another 1,250 Augusta County residents were served in non-credit Workforce-related and Personal Enrichment courses. He felt the most

BLUE RIDGE COMMUNITY COLLEGE – UPDATE (cont'd)

important duty to Augusta County is the businesses and how to provide the workforce that is going to sustain the economic development. Sixty-seven percent of adults in this region, age 25 to 65, have less than an Associate Degree. That compares to 55% in Virginia and 61% nationally. Dr. Downey felt that BRCC could assist that population of students get certifications that would lead to Associate Degrees and then later toward a Bachelorette Degree if it was in their best interest. As President of BRCC, Dr. Downey tries to concentrate on the role BRCC plays with economic development. He said it is a pleasure to work with Amanda Glover, Economic Development Director, as well as with the Shenandoah Valley Partnership (SVP). BRCC is nearing the completion of a 40,000 square foot addition to the Health Student Center, which houses Admissions, Records, Student Financial Services and Student Financial Aid, which was in a 1970's building crammed into offices. As BRCC grew and added staff, they were put in cubby holes. This building would provide adequate space that is well-planned out and conducive to helping students go through the process of admissions into credit programs in a more logical way. The Center would also provide 10 or 12 additional classrooms and Chemistry Labs. A parking deck has been approved by the State Board and they hope to break ground sometime in October. Dr. Downey explained the need for the parking deck was because of the water quality and water retention issues that requires a large part of land. In the General Assembly bond package, BRCC is also authorized for a Bio-Science building. He felt that to be very instrumental to economic development, especially, with the work being done on Lifecore Drive. He added that he "highly values the partnership with local schools and are working closely with them in the Career Pathways Consortium to help young people see that there is a pathway through career and technical education to an Associate Degree and a Bachelorette Degree, but most importantly, to a job that is a well-paying job that they can raise a family on and stay in this area. A program for seventh graders is being planned sometime in the fall where companies will highlight the products they produce and show students how they are produced so that they will get exposed to careers that they would otherwise never know exist. Dr. Downey stated that he had shared the Strategic Planning Committee for the Virginia Community College System with one goal: "By 2021, we are going to triple the number of credentials that we offer the State". Credentials meant not only offering Associate Degrees and Certificate Programs on the credit side that meet the needs of industry, but, also, offering non-credit Workforce-oriented Certifications (such as welding, machinery, health care, truck driving) which would be important to local industry. The General Assembly is considering funding for the first time in Virginia history non-credit Workforce-oriented Certifications. The formula for that funding would be 1/3 student would pay; 1/3 State would pay upon completion of the certification program; and 1/3 State would pay when the certification is actually issued.

Mr. Coleman commended Dr. Downey and said that the Board always looked forward to hearing from him. "The current theme is creating a new Virginia economy and we applaud you for preparing the kind of workers with the skills that employers are looking for."

Dr. Downey added the statistic: "For every job that will require a Master Degree, there will be two jobs in the future that will require a Bachelorette, but there will be seven jobs that require some post-secondary training but not necessarily a degree. When you think about our local manufacturers, that certainly is true as they get more technical and high-tech. It is the technicians that repair those machines that keep those production facilities going that I think is vital to the success of the economy in the future."

Chairman Bragg expressed the appreciation of the relationship between the school, the County, and the citizens, Community Development and the Economic Development departments. "You really go over and beyond as far as your efforts to meet the needs of our industry and our businesses and the vision for the future needs. We certainly do appreciate and value that relationship."

PROJECT GROWS

The Board considered lease with Project Grows.

Timothy K. Fitzgerald, County Administrator, advised that this had been discussed at Monday's Staff Briefing. He noted that, when this project began, the lease was with the Office on Youth because it was running the program. Since then, Project Grows is solely responsible. The lease indicates this revision and also includes the term to expire October 31, 2020, with two consecutive 5-year term renewals.

Dr. Pattie moved, seconded by Mr. Shull, that the Board approve the lease with Project Grows.

Patrick J. Morgan, County Attorney, advised that the Health Director of the Central Shenandoah Health District has requested Board consideration of a Memorandum of Understanding which addresses Rabies Exposure Authority and Responsibility Plan. NARROWBANDING

The Board considered approval of lease with Vertical Bridge Holdings, LLC.

Jennifer Whetzel, Deputy County Administrator, reported that a brief update was provided at the Staff Briefing on Monday. This project is an upgrade to the County's E-911 radio system. The current action before the Board is to address award of a contract for construction of a tower at Troxell Gap. This is a new site for the County public safety equipment and it is needed because of the lack of coverage with the narrowbanding frequency change. The County received proposals, conducted interviews, and entered negotiations with the vendor. The project includes site work, a road, tower construction, shelter construction, a generator, fuel tank and pads. The committee recommends that Vertical Bridge Holdings, LLC be awarded the contract. The lease includes a 15-year term, with three optional 5-year renewals. The rent per month is \$3,510 with a 3% annual escalator and a rent reduction is available to the County for future vendors on the tower. Vertical Bridge approved all of the language changes that the County had made to the lease, at the County Attorney's request.

NARROWBANDING (cont'd)

Mr. Shull asked if she had the information that was requested on Monday. Ms. Whetzel said if there was an outage at Elliott's Knob, we have a simulcast system so that Massanutten and Devil's Knob would continue to provide coverage during the scenario. She read: "The microwave network system is designed with some redundancy to keep the network running during a failure. For example, each of the microwave radios have hot standby transmitters and receivers that will automatically switch to the redundant component to keep the system operational during a failure. The network system is designed with redundant routers and switches." She further explained that the coverage would not be exactly what it would be with Elliott's being there, but the Massnutten and Devil's Tower and the simulcast system would keep some coverage available. She added that the initial narrowbanding proposal was to build the intermediary tower between Devil's Knob and Troxell Gap. If you wanted to go a step further, which has not been discussed, would be adding one between Deerfield and Troxell Gap. You would have a continuous loop in the entire system if this was done.

Dr. Pattie moved, seconded by Mr. Pyles, that the Board approve the lease with Vertical Bridge Holdings, LLC.

Mr. Pyles:

1. Reassessment and 911 information had been placed in his mail slot and the Chairman's mail slot. Considered it as good information. In regards to reassessment, he noted Rockingham hires essentially part-time people for approximately two years under the office of the Commissioner of Revenue for approximately \$357,880. He felt that to be "quite a deal in comparison to the Augusta County's expense". He felt it worth researching a little further for consideration.

Reassessment

He noted two things:

- a. Hiring a company specifically to assess top 20 industries. Thought this to be a smart way of doing things and a protection of litigation. Asked if Rockingham paid personnel in the Commissioner's office a higher salary than usual. Commissioner's office has the benefit of already having files on the property and notating changes in zoning, building permits, or fires, etc., and keeping it updated.
- b. Staunton does things differently. They have their own reassessment department and questioned if they could get information on that process with having a continuous reassessment.

911

Noted that Rockingham is more expensive than Augusta County. They handle Harrisonburg and Rockingham as a combined unit. He noted that the predominate costs were labor. He referred to Augusta County's budget showing personnel and fringe benefits and an additional \$600,000 of costs. He noted that Rockingham indicates \$2.2 million worth of costs. He questioned the discrepancy of those costs. He noted that if you looked at cost per call, Rockingham is \$9 a call and Augusta County is \$6.

2. DSS visit – Good visit! There should be some follow-up to get a better understanding on what occurs. He asked who is invited to the forum.
3. Clay Graham, who led us with the Pledge, was born at the Churchville Fire Station and is Nick Collins' nephew.

Chairman Bragg:

1. Remember the Mr. Coffield's recognition tomorrow morning at 8:00 a.m.
2. Friday, February 26th – Governor – Economic Development Announcement
3. Governance Luncheon – attended today. "Good information!"
4. Emergency Services Meeting – attended last night.
5. Dominion Pipeline Open House – March 8th at Churchville Elementary School.
6. Planning Session Meeting – March 21st at 11:00 a.m.
7. Monday's Staff Briefing – Thank you for attendance of long meeting. "Very good day!"
8. Reassessment and 911 packet – asked if any other Board members wished to have information. The Board asked for that information to be provided to them.

MATTERS TO BE PRESENTED BY THE BOARD (cont'd)

Mr. Garber mentioned that about 20 years ago, he was on the Board of Equalization. At that time, Rick Homes (currently the Treasurer) was the Assessor. He recalled that when citizens came in, Mr. Homes was able to provide information to them regarding the condition of the property. He knew the values. He felt that part-time people are a benefit; however, there may be a need to consider placing people on a full-time basis to provide this service. "The right person in that place would have a good idea of the value of everything. A really good person in place could continuously be doing that instead of these shotgun approaches. We've gotten in trouble in the past by having people that were part-time."

MATTERS TO BE PRESENTED BY STAFF

Staff discussed the following issues:

1. Broadband grant RFP is due on Monday. Committee will review proposals and interview early March. Dr. Pattie is on the Committee.
2. School bonds – Public Hearing advertised for March 23. This is part of the borrowing process.
3. Narrowbanding radio project – Local Emergency Performance Grant received in the amount of \$14,882.
4. Todd Lake Dam – Ms. Whetzel mentioned that the Board approved an agreement for the Todd Lake construction over a year ago. The project is near completion with the exception of having an addendum updating figures on the project, as construction was less than in the original approval. The County Administrator is authorized to sign the addendum.
