ADDENDUM #1

TO: All RFP Offerors
FROM: Corey Richie, VCA, Senior Purchasing Assistant
SUBJECT: RFP# 81010-17-02
DATE: June 19, 2017

Below are the answers to questions we received regarding RFP 81010-17-02:

1. *Is there any pre-bid meeting that will be conducted for this solicitation?*
There is no pre-bid meeting scheduled at this time.
2. *Who are the consultants that worked on previous stages of the design?*
National Resources Conservation Service Virginia office developed the current design.
3. *Are the consultants who worked on the previous stages precluded from bidding on this phase?*
NRCS-Virginia cannot bid on this job
4. *Is there a reason why the consultant who performed work till 95 percent design on this dam is not continuing to proposed phase?*
NRCS-Virginia lacks the technical capacity to proceed based on the determination by NRCS NDCSMC staff that a chimney drain is required.
5. *Is there any requirement to use small businesses to complete this work?*
No, there are no small business requirements.

6. *Scope of work for "Task Order #1" states a certified professional geologist in VA shall be present during all drilling operations to log and classify soil and rock samples. Is it acceptable to have:*
 - a. *Geotechnical engineer registered as professional engineer registered in Virginia on site instead of professional geologist?*
 - b. *A junior geologist on site under the direct supervision of a professional geologist?*

To make sure we have consistency among all proposals, professional geologists are required.

7. *Is full SF330 submittal package is required in addition to the items requested under "Proposal Preparation" on page 7 of RFQ?*

Yes, all forms are required.
